

# Family Constellation Workshop

Working for inner peace, joy, reconciliation

**Sun. May 8<sup>th</sup> 10 am – 4 pm**  
**T.A.Y.S, 6156 Quinpool, Halifax**  
**\$ 120**

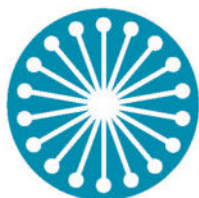

At the workshop participants will learn about Bert Hellinger and his method of setting up family constellations to answer **individual** questions. You don't need to bring family.

The work is typically done in groups. Group members are chosen to represent family members and are positioned intuitively by the participant, including a representative for him or herself. Hereby an energy field is established and representatives then begin to feel actual feelings of those family members they are representing.

By looking at how people are positioned and asking how they feel the facilitator can begin to get some idea of where the system may be out of order. This uncovers hidden dynamics which have led to the disruption of the order. The facilitator then experiments with moving people around and bringing in possible more people until the heart opens. When the heart opens in this way, the whole group feels it as a very deep and moving experience. It is as if the soul finally comes home. Healing sentences are spoken to honor the missing members and allow love to flow freely once more.

You are encouraged, to look up further information on the web: [www.curezone.com/Hellinger](http://www.curezone.com/Hellinger). Please contact Ursula to sign up or to clarify questions.
